The Wellness House provides, manages and co-ordinates a unique Comprehensive Risk Management Solution System called (CRMS) to Risk Underwriters and Corporate Africa creating wealth and health on the Continent.

The Comprehensive Risk Management Solution System (CRMS) is a system that assesses, co-ordinates and manages all risk indicators, co-ordinates corporate and employee wellbeing solutions thereby creating corporate wealth and health through integrated risk management.

CRMS is an Innovative Comprehensive Risk Management Solution System that helps to subsidize Employee Wellbeing Programs leading to focused, customized interventions and cost cutting. This system provides diagnostic, corrective, predictive and preventative solutions from a SANS 16001 HIV/AIDS audit to Critical Incident Stress Debriefing.

The CRMS system results in:

- Creating of wealth through comprehensive risk management
- Conducting a comprehensive risk and wellbeing management audit
- Managing, developing, implementing and co-ordinating comprehensive, customized corporate and employee wellbeing programs thereby creating wealth.
- Managing of claims, death and disability.
- Recovering some of the R60 billion a year spent in 2007 associated with employee risk indicators.

-

Effectively managing the more than 9%-15% unproductive employees due to psychosocial challenges.

-

Adhering to the various government laws and regulations governing good corporate wellness practices.
